Each pocket of survivors held on to an isolated set of worlds while trying to rebuild under the great law of Shalun. Three centuries later, technology brought them together again. The discovery of hyperwarp has bridged the long-lost distant colonies. Time, and political factions. With this reunification came great economic prosperity. Hyperwarp restored freight, cargo, and technologies between diala – but also brought great conflict. Political rivalries were rekindled, blood was spilled into old conflicts, and the fires were fueled. In the midst of internal political struggles, a ruthless revolution is on the rise – and the fervent explorers of hyperwarp have awakened something that was better left asleep. Our first game, Star Traders RPG, took hundreds of thousands of players in an interstellar adventure. Star Trades –™ success and an extremely positive receiving majority helped launch Trese Brothers Games. It was our community –™s star-crossed captains who put us on a trajectory to share more of our worlds, ideas, and dreams. We set out to capture the loneliness, courage and camaraderie of people living together in a spaceship sailing over the stars. It is with great pride that after releasing four other games in the Star Traders universe, we –™ have created a sequel to the original Star Traders RPG. Step on to the bridge of your ship, take to the stars, and create your own story in Star Traders: Frontiers. Content: You are the captain of a starship that ventures into a huge open universe. To this day, the universe has always been something mysterious that people still can't answer. Why is that? Because it is so large, there are things and phenomena that do not follow any physical law. Therefore, this topic is interested in many game developers and put their ideas into it. Have you ever wondered what's going on with the other universe? Is there an alien creature humans have ever predicted? Find your answer with Star Traders: Frontiers! Story The Star Traders: Frontiers is a role-playing game in which you become the captain of a spaceship. Outside the Earth, there are millions of lives in existence. They found the intense life of the Earth and created a plot to invade it. As captain, taking on the task of protecting the Earth from external dangers, you cannot leave them in You will begin your journey to respond to the attack from strangers. To play In this game, you will be assigned a lot of tasks to perform, the more you explore, explore, the more it will go into the plot. You know mysteries, but at the same time, you meet with much more danger. Not only earth, but other planets have life, and they're not as friendly as we thought. You will face the kings and alien princes, along with their army and enter the warship. The system will give you a default ship, so you manage and develop it yourself. Upgrade your ship, equip us, most advanced weapons, and recruit crew fighters with you to fight. Although the main factor involved in battle battles is ships, this game also appreciates character, because sometimes you have to land on the surface of the planets, and perform actions. The crew you recruit has combat skills, strengths, weaknesses and personal ambitions. Although you're the captain, you can't work without teammates. So recruit and train them with the ability to control the ship and fight enemies in the future. In terms of gameplay mechanics, the game is part of the basic tower category. You and the enemy will attack one at a time until one side is damaged and can no longer fight. Each time your turn comes, an interface of combat skills and support elements will appear. You need to choose the combat mode, then hit the end turn to damage the enemy. Star Traders: Borders are also tactical, so each turn of your choice should be carefully selected to win. Every time the game ends, you'll get a bonus. Use this money to customize the ship, buy weapons, and upgrade them for greater damage. Graphics Star Traders: Frontiers background quite simple 2D graphics, build battle scene takes place in outer space where planets and stars. The player not only controlled his ship, but also saw the fantastic scenery because of the bright stars on the dark universe. In addition, the choice of tones is also very subtle, creating a scene that is somewhat artistic and mysterious. Mysterious.
